

How to Install a Chrome Extension Manually

Step 1: Download and Extract the ZIP File

Download the provided ZIP file containing the Chrome extension and extract it to a folder on your computer.

Step 2: Open Chrome Extensions Page

1. Open Google Chrome.
2. In the address bar, type `chrome://extensions/` and press Enter.

Step 3: Enable Developer Mode

At the top-right corner of the Extensions page, toggle on 'Developer mode'.

Step 4: Load the Extension

1. Click the 'Load unpacked' button.
2. Select the extracted folder that contains `manifest.json`.
3. The extension will be installed and appear in the toolbar.

Step 5: Using the Extension

Once installed, click the extension icon in the toolbar to use it. If the icon is not visible, click the puzzle icon to pin it.
